Abstract

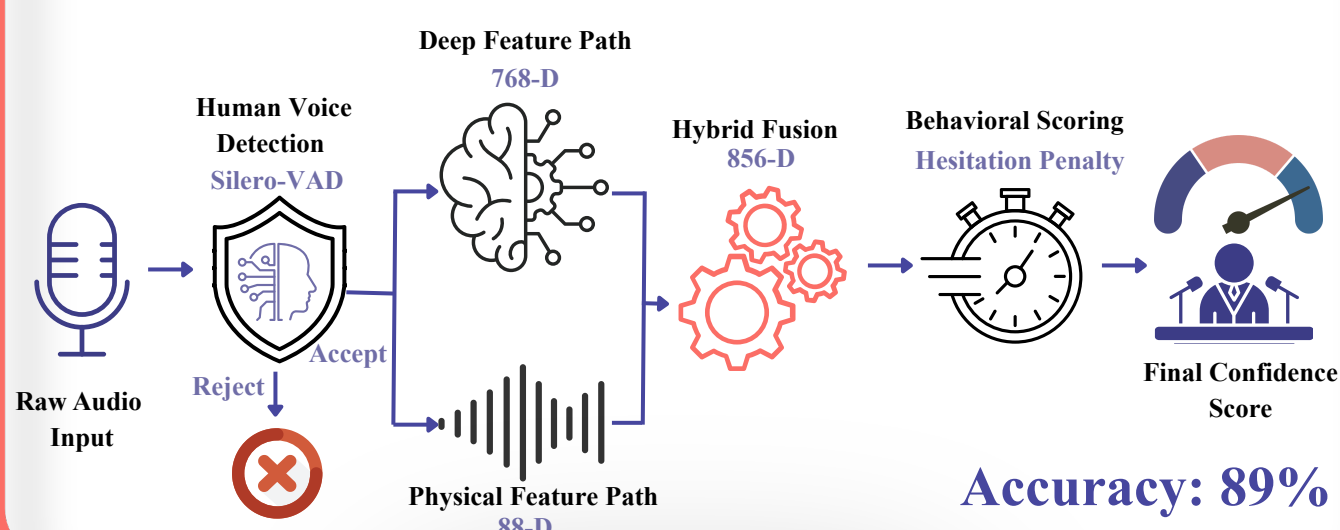

Jadeer is an AI-powered recruitment application built for both companies and job seekers. From AI-driven interviews and automated evaluations to CV enhancement and mock simulations, **Jadeer** streamlines the entire hiring journey. Powered by LLMs, STT, TTS, and a custom Vocal Confidence Scoring Model, **Jadeer** goes beyond traditional ATS systems, assessing not just what candidates say but how confidently they say it. Aligned with the goals of Saudi Vision 2030.

Methodology

AI Model

Vocal Confidence Scoring Model

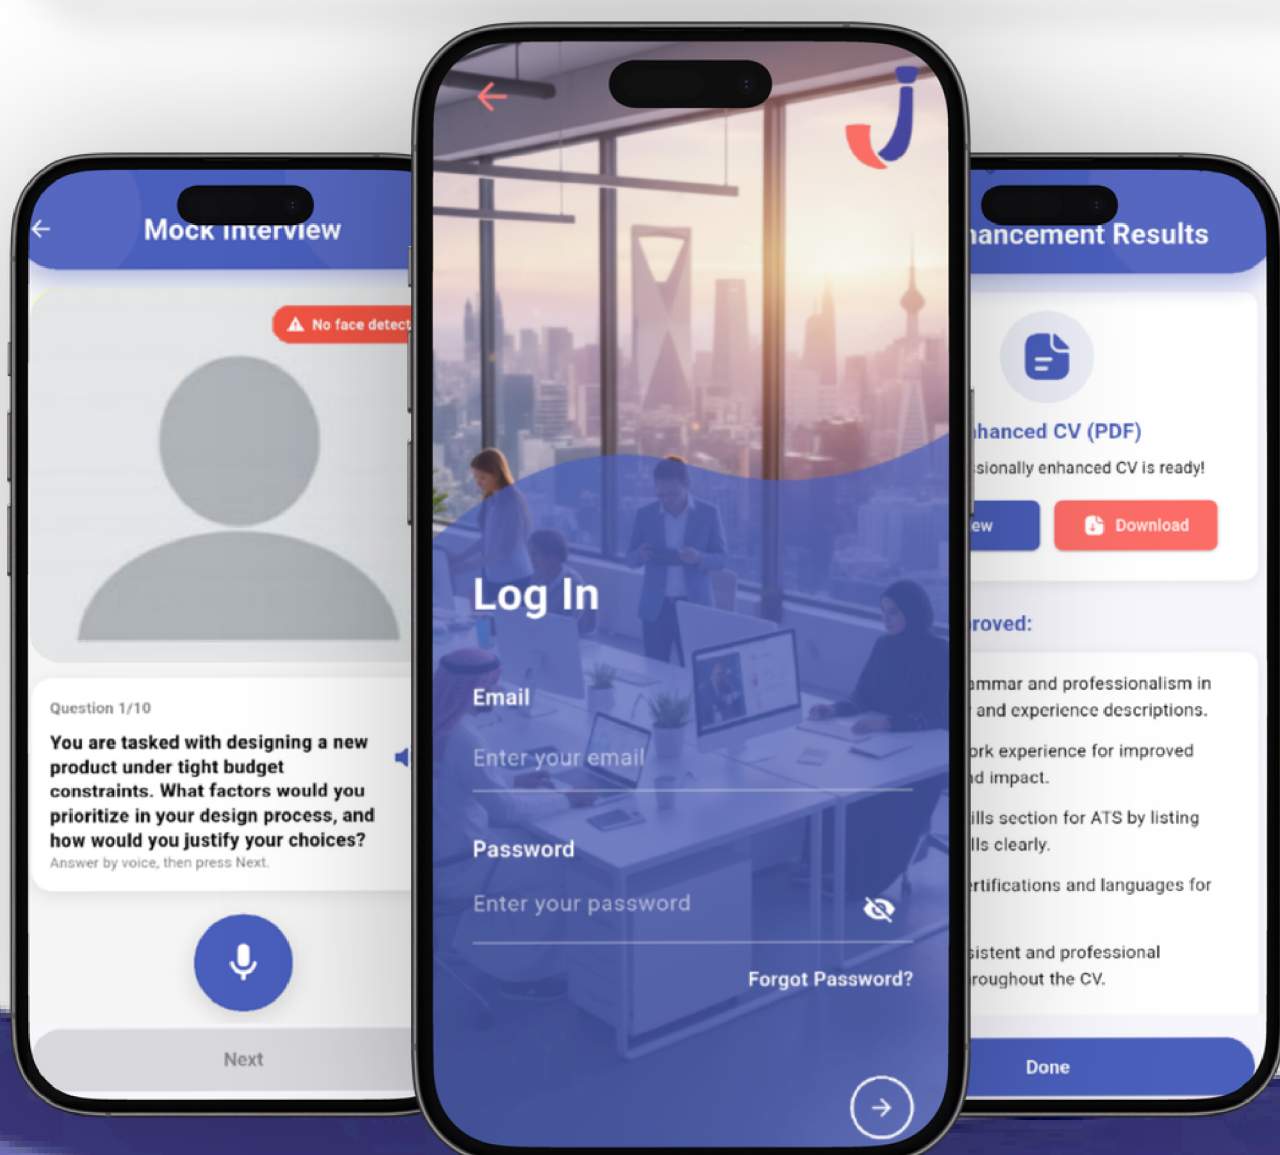

Objectives

Streamline Hiring for Companies: Automate interviews and generate candidate evaluation reports for faster, objective hiring decisions.

Empower Job Seekers: Offer job matching, CV enhancement, and mock interview simulations with personalized feedback.

Assess Candidate Confidence: Analyze vocal patterns during interviews to generate an objective, SER-based confidence score.
